

### **Do I get a certification for completing all the Meraki FIT videos?**

Since Meraki FIT is aimed to onboard new partners and be a source of information for you, we're not offering a formal certification for this program. BUT you will get a certificate of completion every time you complete a Level. We will be adding new levels to the Meraki FIT program when we have new content.

### **Can I share the video content?**

The Meraki FIT video content we have provided is currently uniquely available to Meraki Partners and Cisco employees. Each individual accessing the material will need to log into the site using a Cisco user login in order to watch the tutorials. Please direct your colleagues to [community.meraki.com/merakifit](https://community.meraki.com/merakifit) and they'll be prompted to log in with their own Cisco SSO.

### **How often will you be adding new content to the program?**

We aim to keep the tutorials up-to-date and add new content to create new Levels within the Meraki FIT course structure. Keep checking back for course updates, and we will also aim to send communications when new Levels of Meraki FIT become available.

### **I have questions, who should I contact?**

If you have any sales related queries please reach out to your Meraki rep (you can find this person's name by using the Find My Meraki Rep feature on the Partner Portal at [merakipartners.com](https://merakipartners.com)). For customer technical support, you can find all of the options on the [Support pages of the Cisco Meraki website](#). If you have a query specifically related to Meraki FIT then you can email us: [merakifit@meraki.com](mailto:merakifit@meraki.com)

### **The Meraki FIT gnome is awesome! What's his name?**

Hi, I'm FIT Phil, it's a pleasure to meet you! Stay tuned for more from me and the Meraki FIT training program.
